

1. Overview

In 2016 the Masters of Psychology – Rural Placement Bursary was established to assist with costs incurred by students to complete their clinical placements in rural areas.

2. Bursary Package

The bursary can be made up of one or more of the following items:

- Financial assistance, to be paid to the student in instalments
- Supervision support to complete placements in Rural Victoria

The amounts allocated will be decided on a case by case basis, and will be at the discretion of the Going Rural Health team.

3. Application Process

All applicants will automatically be considered for a Bursary.

Upon review of an application, the applicant will be advised if their application has been accepted or declined. Where a student is accepted, the bursary and support is guaranteed as long as the successful student provides all required documentation and post placement requirements as detailed in Section 6.
