

# Foundations of Cerebral Palsy Management - Ballarat & Grampians region

This face to face study day provides the opportunity to enhance and broaden your knowledge of Cerebral Palsy from multiple healthcare professions.

Topics include:

- Aetiology and diagnosis; neuroimaging and pathogenic variants
- Management of multisystem complications and associations
- Surgeries and peri-operative surgical care
- Early years – Early detection and evidence based interventions
- Primary school years – F-words of CP, functional therapy and physical activity
- Nutritional considerations for children with CP
- Tube and oral feeding
- Communication: what to consider and where to seek support
- Dysphagia: what, how, and supporting families to understand why
